REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, teaches a product transfer device in connection with a container having a variable length transfer arm, product valve and shutoff valve, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

Linking claims 1, 14, 25 and 34 are allowed. Since the restriction requirement among inventions I-IV, as set forth in the Office action mailed on 2/14/05, was conditioned on the nonallowance of the linking claim(s), **the restriction requirement as to the linked inventions is hereby withdrawn.** Claims 3, 4, 7, 12, 13, 15, 16, 18-28 and 34-38, previously withdrawn from consideration as a result of the restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement as to the linked inventions, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 29-33, non-elected without traverse. Accordingly, claims 29-33 have been cancelled below.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 29-33.

In Claim 20 (Patent claim 20),

Line 2: After "source" add a period to the end of the line.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Cary, Huck, Lassman et al., Alack, Raison, Lanning et al., pertain to various product transfer apparatus, similar to Applicant's device.
